In memory of John Hedgecock

The BWF Woodworking Project of the Year Award recognises innovation and the very best in design, application and ability in joinery manufacture. The Award was presented in 2018 to TMJ Interiors, a specialist joinery contractor, for their work on a high profile project at Bloomberg's flagship HQ building in London.

This prestigious project involved creating a timber lobby 'vortex', made up of 5621 bespoke American Red Oak panels with three 7 metre high, 32 - 40 metre long curve on curve interconnecting assemblies – the largest free-standing structure ever manufactured and installed by TMJ along with an auditorium and an associated pre-function gathering space.
